October 16, 2015

Dear Colleagues,

I am pleased to inform you that we are opening a new MSP-funded private Category 1 polysomnography laboratory called *Surrey Sleep Clinic* in Surrey, BC in November 2015.

This sleep laboratory is MSP approved to provide the following services:

- Overnight Polysomnogram (level 1 polysomnogram)
- Positive Pressure Titration (CPAP, Bilevel or BiPAP) & ASV (Adaptive Servo-Ventilation) Titration
- Multiple Sleep Latency Test (MSLT) and Maintenance of Wakefulness Test (MWT)
- Ambulatory Sleep Apnea Studies (level 3 studies)
- Overnight Pulse Oximetry

All of above tests are fully covered by the MSP.

The sleep clinic referral form will be available for download from our web site www.surreysleepclinic.com. The referral form will also be made available for the major EMR systems including OSCAR, PLEXIA and WOLFE etc. We can also provide you with paper referral forms if desired.

I will be available for sleep medicine consultations in the Surrey Sleep Clinic effective November 2, 2015. I have been providing comprehensive sleep medicine consultations and overnight polysomnography services in Richmond since 1991. We will have other qualified physicians join us in future; we will strive to provide timely consultations and polysomnography.

We will be available to assess and manage all patients with sleep disorders. This includes patients with central and obstructive sleep apnea, opioid induced sleep disordered breathing, parasomnias, narcolepsy, hypersomnia, insomnia, and other sleep disorders.

We will provide rapid access to all physicians for overnight pulse oximetry and ambulatory sleep apnea study with a five working day turnaround. Patients requiring overnight stay in the sleep laboratory for diagnostic or therapeutic tests will require prior consultation with our accredited sleep medicine consultants.

Sincerely,

A S Minhas

Dr. A. S. Minhas
